Description: An entertainment complex known for immersive exhibits for famous artists, including Van Gogh and Mozart.

The client wanted to promote the venue's new availability to the public for private events.

My involvement. I wrote a press release about Lighthouse ArtSpace's availability for private party rentals. I used Critical Mention and TVEyes to grab footage about Lighthouse ArtSpace, and then combined the footage into a Sizzle reel for the client. I also used Cision to calculate the number of impressions and associated income.
